

EPIC SINGLE INSTANCE LAB ORDERS

Effective Date: September 6, 2016

On July 27, 2016 an additional lab compendium was added to EPIC in preparation for the EPIC Single Instance project that will be implemented on October 1, 2016. To accommodate founding Oakwood sites, their orderable lab tests have been added to EPIC

To ensure your future orders come to our Laboratory Information System:

- **DO NOT CHOOSE TEST WITH OHS- PREFIX.**
- If test with OHS- prefix is selected and the patient presents at a founding BHS site the order will fail to come to our Laboratory Information System.
- This can result in the lab missing a test that was (or has been) ordered.

On September 6, 2016, Information Technology and Lab created a process for recognizing when this happens. Prior to that date, there is potential that tests were missed. The Laboratory is working on a report that identifies those tests. Sites that have patients on this list will be contacted by our Customer Service department with a report.

Name	Type	ResultAg	Cop
CBC - OFFICE	Lab - In C		
CBC W DIFF - OFFICE	Lab - In C		
CBC (aka COMPLETE BLOOD COUNT)	Lab	BHS, FH	
CBC (aka COMPLETE BLOOD COUNT W DIFF)	Lab	BHS, FH	
CBC (aka COMPLETE BLOOD COUNT W DIFF CHEMO)	Lab	BHS	
CBC (aka COMPLETE BLOOD COUNT, CHEMO)	Lab	BHS
