Three calendar days (date of collection is considered day zero)

| Surgery day | Blood work day of service (should have done on this day or after) |
|-------------|---|
| Monday | Friday |
| Tuesday | Saturday |
| Wednesday | Sunday |
| Thursday | Monday |
| Friday | Tuesday |
| Saturday | Wednesday |
| Sunday | Thursday |

NOTES

- If the patient has bloodwork performed as indicated to the left, a wristband will be given to the patient. This wristband must remain on the patient when they arrive for surgery.
- If the patient has bloodwork performed earlier than indicated to the left, a wristband will not be given and the bloodwork will be repeated on the day of surgery.
- If this armband has been removed prior to your scheduled procedure, for your safety, your blood tests will need to be repeated. Repeat blood work will cause a delay in the start time of your surgical or scheduled procedure: or in some cases, your procedure may need to be rescheduled.
