

## **Beaumont Laboratory**

### ATLAS REPORT FORMAT GETS AN UPDATE

Effective Date: March 1, 2016

# Laboratory Bulletin

Laboratory reports generated from Atlas Labworks now have a cleaner, simpler look, with an easier to read formatting. Beaumont Laboratory has made these changes based on various client suggestions and to align with the reports coming from our Laboratory information System, Soft+.

New features include:

- Patient demographics now more prominent in the report header.
- An "abnormal summary" report.
- Easier to read format with changes to both font type and size.

Attached is an example of the enhanced report.

We hope you find these changes beneficial to your practice!
