

Atlas Labworks Upgrade

Effective Date: May 1, 2016

Beaumont Laboratory is upgrading the Atlas Labworks software in order to proceed with a variety of enhancements to our portal and interface clients. If you are receiving this bulletin, Atlas Labworks is part of your connectivity with Beaumont Laboratory

Atlas will be unavailable from 12:00 pm, Sunday, May1, 2016 until 8:00 am, Monday, May 2, 2016.

On Monday, May 2, 2016 you must reboot your Atlas PC after 8:00 am in order for reports to print or to be able to sign in.

There are two ways Beaumont Laboratory uses Atlas Labworks:

- **Portal-Clients** order tests directly in Atlas Labworks and results are sent back through the module.
 - See below for changes to screens and menus
- **Interface-Clients** with an Electronic Medical Record (EMR) interface that uses Atlas Labworks to make the translation between their EMR and Beaumont Laboratory.
 - EMR clients should see no changes in functionality at this time.
 - If you receive this bulletin, your office interface is using Atlas Labworks to process information

Beaumont Laboratory has performed extensive testing to ensure a smooth and seamless transition for the users. If you have any problems we will have resources available to assist. Please contact Customer Service at 248-551-1155 option 5.

For clients that use Atlas Labworks to place their orders, this user update will provide you with a brief overview of the changes you will see with the new software.

Different Look and Feel

Old Version 11 patient demographics box:

Patient: XXX,RO LAB DEMO	DOB-Age: 01/12/1963 – 53 Y	ID: ABL0999900007

Different Functionality in the Insurance Screens

When the patient has multiple insurances (primary and secondary, etc.) the insurances are listed onscreen instead of only being able to check the priority assignment via a drop down field. This makes selecting and changing the primary insurance for the order easier. The insurance priority can be moved up and down by use of the arrow buttons in the right hand columns of the screen.

New Options When Creating “Local” Insurances

When entering a “local” insurance provider (creating a new insurance when the patient’s insurance is not found in the listing of insurances in the “Insurer” field of the New Insurance Provider for Patient, X screen) the user must select an insurance type – choices include Medicare, Medicaid Commercial, Automobile, Workers Compensation. Additionally the payor’s (insurance company’s) address and zip code are now required fields:

If you have questions, please contact Client Services (1-800-551-0488, option 5).
