

Thrombotic Risk Assessment Genotyping Methodology Change

Effective Date: January 31, 2022

Due to the vendor discontinuing the reagents to perform Factor V Leiden and Prothrombin (Factor II) Genotyping, both tests will be performed using a different platform and vendor.

There are no changes in specimen requirements, storage and transport. The test codes and reports will remain the same.

Affected tests include:

- Factor V Genotyping Analysis
 - EPIC Code: LAB6383
 - CPT Code: 81241

- Prothrombin (Factor II) Genotyping for Thrombotic Risk Assessment
 - EPIC Code: LAB6389
 - CPT Code: 81240

If you have questions, please contact Client Services (1-800-551-0488, option 5).
